For skiers and boarders, it's that in-between time of year. Most of us won't get to ski in May and it's not quite summer yet. Lucky for us, the FDSC is a 4-season club. Being active throughout the year is not new for the Dutchmen. Groups have been hiking, biking, floating, sailing, attending sports events, and yes, even in-line skating for quite a few years. Back in the day, some members participated in downhill mountain biking at Killington in the summer. There were both local sailing groups on Blue Marsh and Caribbean adventures as well. We took a fall wine tour, went zip lining and white-water rafting. More recently, members have been playing pickleball, camping at Pine Creek and exploring

the east coast on a variety of bike rides.

All of these things happen because we have many members who plan, organize and promote activities. Some people work behind the scenes while others serve on committees and the board. Our success is a direct result of those who devote their time and energy to plan events that are open to all members. This month, I'm going to take a moment to thank two of our outgoing board members. They have worked hard on an impressive number of projects. Here are highlights of a few of them.

Cindy Manning has been Social Director since 2022. Her drive, determination and vision for the club has definitely had a positive impact on all of us. The picnics have reached a new level thanks to her enthusiasm and incredible work ethic. Cindy also has tremendous leadership skills and recruits dynamic team members to help make things run smoothly. Her talents are not limited to social events as she has run successful trips for the club as well. She leaves a legacy that is inspirational.

Jen Walters has been Programs Director since 2022. Jen is a creative spirit who has brought youthful joy to our meetings. She always has ideas to share and a willingness to try new things. Her insightful perspective has influenced other areas of the club including the family trip. Jen has organized a variety of programs from informational sessions to active competitions. She put a new twist on the holiday party with ugly sweaters and gift exchange. Members have enjoyed learning new things, dancing, playing games and winning prizes. Jen reminds us that we can all lighten up and have some fun.

I know that both of these strong women will remain active in the club so please take a moment to thank them when you see them.

On a personal level, I would like to thank all of the members who have supported me during my first year as president. I appreciate your feedback, input, ideas and participation. Please continue to do your best for the club so we can continue to grow and thrive.

**Jen Walters, outgoing  
program director.**

**Wyatt Haupt, our newly  
elected social director  
with Cindy Manning,  
outgoing social director.**

**Becky Shade, our new  
program director.**

## FDSC APPAREL

The first phase of the new FDSC Apparel program is finally here! Come out to the May meeting to check out the new short sleeve and long sleeve tri-blend T-Shirts. We've brought in a small order in different sizes so that you can check them out, try them on and get ready to order your very own.

After we gauge initial response, we'll roll out more fun stuff – quarter zip turtle necks, vests and possibly hats. They'll be ready for fall.

See you at the Meeting on May 2nd!

## SKIMEISTER

Well, locally the last of the snow at Bear Creek is melting fast but New England still has plenty of opportunities to get in some end of the season runs. But it's time to start thinking about next season.

First, remember that skiing is an athletic activity. The better shape you're in, the more likely you'll be able to ski safely and well, and longer each day. Try to take advantage of our many activities – biking, kayaking, hiking – whatever gets you outside and moving.

Our June meeting is Trip Night. Our first trip of the season is "First Tracks." We'll be taking a bus to Killington and taking along a full complement of our best instructors. We'll give you an opportunity to ski or ride with an instructor for the entire weekend on some of the best terrain the East has to offer. This is a great time to make improvements to your skiing that you can benefit from all season.

*Paul Schwartz*  
Skimeister

## TRIPS

Our group-dedicated trip leaders are still working tirelessly preparing all the details for the line-up of great Flying Dutchmen Trips scheduled for 2025. We are excited to have both new members and existing members joining the ranks of trip leaders becoming more active in the FDSC; Jack McGarry, Nate Weaber, Matt Seasock, Jarad Davis and Rebecca Shade!

There's a new start date to get your "Real ID" in Pennsylvania...again. After March 7, 2025, travelers will need a "Real ID" or passport to travel on domestic flights. So if you are considering joining the Park City trip leaving March 8, 2025, take the steps now to acquire the proper documentation.

Don't forget to mark your calendar for trip night on June 6th at 6pm!! Visit [www.fdsd.org](http://www.fdsd.org) for more information.

Trips Director

## COMPETITION

Greetings all. Wow, another race season gone! So, without further BS, down to business. We have a Club Race Awards date change: The "updated" date for the 2024 FDSC Championship Race awards ceremony will be October 3rd, immediately following the general meeting.

Not much else to report on this month. Enjoy the "off-season".

Stay Frosty!  
*Chris Berns*  
Competition Director

# MEMBERSHIP

## Membership Renewal Emails will be sent at the end of May to the Primary member in each membership account.

All renewals will be done online using the club's secure website. The new membership year begins June 1.

## Only the "primary" member is responsible for membership renewal.

That is an Individual member and just one of the adults in a Couple or Family membership. If you log in after June 1 and do not see the renewal link, you might be the secondary member. Ask the other adult in your membership to do the renewal or contact the Membership Director if you wish to change the primary member.

If you have forgotten your username or password, click Member Login in the upper right corner of the website. Choose "Forgot Username/Password" and the system will email a new temporary password to use to log in. You will be required to select a new password but it can be one you have used before.

## At renewal you should check your contact information to confirm it is correct.

You may edit your own information at any time, if necessary, in your member profile. Please be sure to keep your contact information up to date.

- Enter both a phone and cellphone number. If it is the same number, then just enter it in both places.  
Please use the format with dashes, for example: 610-779-8043
- Confirm that your email address is correct.

At renewal, you will be required to check off on the club's liability release waiver for yourself and everyone included in your membership.

## When you renew, you will select your membership type: Individual, Couple, or Family.

Normally you would select your current membership type but you may have the option to change your membership type if it will add a member to your account.

If you need to convert from a Couple to two individuals or drop one of the adults in a Couple membership that can be done by the Membership Director.

In a Family Membership, any child who reaches age 18 before June 1 will be promoted by the Membership Director to an Individual Membership.

## Paying for Your Membership Renewal

There are two options for payment:

1. Pay immediately online by credit or debit card in a secure transaction. This is, by far, the easiest method of payment.
2. Print the invoice from the payment page and bring to a club meeting with your check. The invoice and check can be mailed if necessary.

## Paying dues for another member

If you want to pay dues for another member (either a new member or a renewal), ask that person to join or renew online for themselves. If they pay by credit card, just reimburse them privately. If you want to send a check for them, then tell them to check off "pay later" on the payment page and you can submit a check indicating that the payment is for their dues. Please do not submit a check payment for their dues until they have joined or renewed online.

# GREEK PEAK 2024

**By: Michelle and Chad Zielinski,  
Greek Peak Family Trip Leaders**

Another fantastic family trip for the Dutchman in the books! Greek Peak is a great destination for the weekend—and this year, we were lucky to see as many junior members join with the adults. On the bus ride, we enjoyed ourselves by watching several movies and gorging on snacks. We indulged in a few drinks on the way up (and then indulged in a little fast food on the way home) and entertained ourselves for the entire road trip, uplifted by positive vibes and the anticipation of a fun weekend with our friends and family.

As we arrived at Greek Peak, pulling up to the mountain, many of us noticed the lack of snow covering the slopes. Uh-oh! We also needed to contend with the frigid temperatures forecasted for Saturday! However, much to our shock and delight, the slopes provided very pleasant rides despite the lack of snowfall that weekend.

At the hotel, check-in went smoothly...for most of us. Matt and Jared discovered guests still inside their room! However, the situation was resolved quickly and without issue, and provided a bit of entertainment for the rest of us. The same evening, a group of us hit the slopes while others enjoyed the adjoining water park, lured by the steam of the hot tub. On Saturday morning, a few junior members joined the scheduled ski school

before rendezvousing with the rest of us on the slopes, where we spent the entire day carving the scenic trails of the mountain. Unfortunately, on one of her rides, Jen took a goofy tumble. However, she recently received shoulder surgery for the injury she sustained. Thankfully, she is on the mend and prepared to tackle the next season!

Greek Peak's quad lift proved quite a challenge for many weekend guests due to the maintenance needed to keep the machine running. Several times, the lift left us stalled and swinging on the cables during the ascent. On the upside, any Dutchman that approached the ticket window was comped with a free lift ticket for any day—for up to a year! Well worth the minor inconvenience.

Due to the close proximity of the hotel and ski resort, many of us bumped into each other all weekend long and we could easily link up with other members of the group to grab a bite at the restaurant or challenge the mountain with someone new. Overall, Greek Peak proved to be another wonderful trip with our families, where we gathered with our children to make more memories with the sport we all love so much!

Is it next winter yet? See you all on the slopes next season!
